Campus Ridepooling Automation

Project Timeline and Gantt Chart

29 August–13 November 2026

Legend: group/phase · workstream · milestone

Column headers: each date (for example, “29 Aug”) is the first day of a seven-day calendar column; the following six days continue to the right. Thus, “05 Sep” means the week beginning 5 September 2026, not a single-day deadline. Bars show their dated work windows, while diamonds mark milestones.
